Women's Technology Empowerment Centre

DIGITAL ACCESS AND HABITS OF NIGERIAN GIRLS

89.8%

of all the girls access the internet via a mobile phone

W.TEC administered this Survey at its 2019 She Creates Camp, to learn about the digital access and habits of girls aged 13-17. Forty nine girls were surveyed. W.TEC is a nonprofit working to nurture more female technology creators, entrepreneurs and leaders via training, mentoring and research.

Girls own the following devices

Girls have access to these devices

Girls engage in these activities online

Girls use these social media tools the most

20.4%

of all the girls use the internet everyday

69.4%

of all the girls use social media

77.6%

of the girls believe STEM careers are for men

55.1% of girls stated that they would be more encouraged to pursue STEM Careers if they had a mentor.

22.4% of the girls stated that they would be more encouraged to pursue STEM careers if they knew more women working in STEM
